UVID 2019

INTERNATIONAL CONFERENCE ON UNMANNED VEHICLES

We are honored to invite you to

UVID 2019, The 8th International Conference on Unmanned Systems

November 7, 2019
Avenue Convention Center
Airport City, Israel

Conference Chairman: Mr. Alon Unger

The UVID Conference is an initiative of IsraelDefense and Op-Team-UM, in collaboration with the Israel Drones Alliance (IDA). It aims to bring together under one roof all stakeholders in the field to discuss the most pressing issues in the world of unmanned systems in the civil and military sectors. Conference topics will include technological innovations and entrepreneurship, autonomous vehicles, artificial intelligence, the future of Israel as the "Drone Nation", unmanned systems in the cloud era, emerging markets, challenges and opportunities, regulation, new applications, and more.

The conference serves as a premier meeting place for local and international companies operating in the field of unmanned systems and offers excellent business and networking opportunities for all participants.

This year's conference theme is

The Future of Unmanned Systems

The event will include lectures and panels led by prominent speakers from around the globe alongside a comprehensive exhibition of unmanned systems in the air, land and sea domains. The conference will be held for the eighth consecutive year following the success of the previous UVID Conferences, during which thousands of visitors from 25 countries toured 50 exhibition pavilions and took part in dozens of conference sessions.
