UVID 2019 // NOVEMBER 7, 2019

The UVID Conference is an initiative of IsraelDefense and Op-Team-UM, in collaboration with the Israel Drones Alliance (IDA). It aims to bring together under one roof all stakeholders in the field to discuss the most pressing issues in the world of unmanned systems in the civil and defense sectors. **Conference topics will include** technological innovations and entrepreneurship, Smart Unmanned Solutions for agriculture\ energy\infrastructure\ delivery\entertainment, Counter Drones, AI, Big Data and autonomous, operation challenges and opportunities, regulation, emerging markets, and more.

The conference serves as a premier meeting place for local and international companies operating in the field of unmanned systems and offers excellent business and networking opportunities for all participants including a B2B concept.

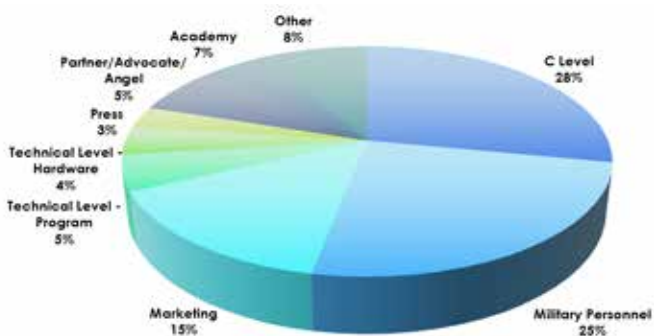

This year's conference theme is

THE FUTURE OF UNMANNED SYSTEMS

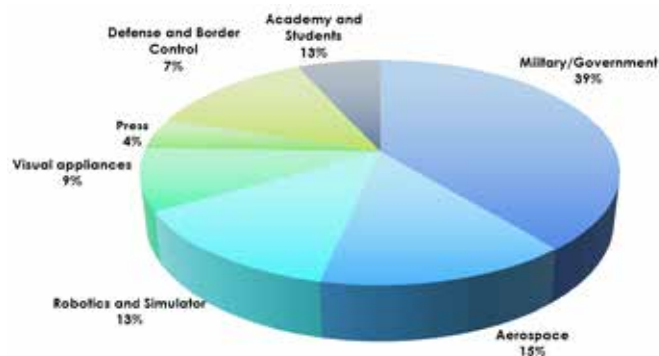

The event will include lectures and panels led by prominent speakers from around the globe alongside a comprehensive exhibition of unmanned systems in the air, land and sea domains. The conference will be held for the eighth consecutive year following the success of the previous UVID Conferences, during which thousands of visitors from 25 countries toured 50 exhibition pavilions and took part in dozens of conference sessions.
