Uvid Drontech 2022

The UVID Dronetech Conference is an initiative of IsraelDefense and Op-TeamUM. It aims to bring together, under the same roof, all relevant stakeholders in this sector as one holistic ecosystem, in order to discuss the most pressing issues of unmanned systems in the civil and defense sectors.

UVID Dronetech 2022 conference, is focusing on the theme

## "The Drone's Role as a National Engine of Growth – From Community to Ecosystem"

Topics:

- National approach and required steps to use UASs\Drones as a strategic and national growth engine.
- Innovation and smart unmanned solutions, UAS\Drone as a Service.
- Drone autonomy, AI, swarms, and big data transformation.
- First responding mission and municipal\urban use of Drones.
- Unmanned Urban Air Mobility (UAM) – challenges and opportunities.
- International approach and changes in the global UAS\Drone realm.
- Drone education and academy.
- Counter-UAS systems – challenges and opportunities.

UVID Dronetech serves as a premier meeting place for experts from multi disciplinary domains, government officials, military and law enforcement members, the "Soul Tree" for policymakers, stakeholders, scholars, and leading industry executives in the field of UAS\Drones from Israel and around the world and offers excellent business and networking opportunities for all participants – including a B2B concept. The event will include lectures and panels led by prominent speakers from around the globe, alongside a comprehensive exhibition and live demo of unmanned systems. The conference will be held for the ninth consecutive year, following the success of the previous UVID conferences, during which thousands of visitors from 25 countries, hundreds of companies, toured 70 exhibition pavilions and took part in dozens of conference sessions
