UVID Dronetech 2023/4

The UVID Dronetech Conference is an initiative of IsraelDefense and Op-TeamUM. It aims to bring together, under the same roof, all relevant stakeholders in this sector as one holistic ecosystem, in order to discuss the most pressing issues of unmanned systems in the civil and defense sectors.

The central theme for UVID DroneTech 2023/4 will be:

Unmanned Systems as a Strategy

Topics:

- National approach and required steps to use UASs/drones as a strategic and national growth engine
- Innovation, startups, dual use, and smart unmanned solutions, UAS/Drone-as-a-Service
- Drone autonomy, AI, swarms, and big data transformation
- First responder & municipal/urban use of drones
- Unmanned Urban Air Mobility (UAM) – challenges and opportunities
- International approaches and changes in the global UAS/drone realm
- Drone education and academy
- Counter-UAS systems – challenges and opportunities

UVID DroneTech serves as a premier meeting place for leading industry executives in the field of UAS/drones, government officials, policymakers, stakeholders, scholars, and military and law enforcement members from Israel and around the world.

This annual event, now celebrating its 11-year anniversary, will include lectures and panels led by prominent international speakers, alongside a comprehensive exhibition and live demo of unmanned systems. UVID DroneTech offers excellent business and networking opportunities for its participants, including a B2B concept.

Thousands of visitors from over 25 countries attended previous UVID DroneTech conferences, where they took part in dozens of sessions and toured 70 exhibition pavilions. Hundreds of companies have already presented their innovative solutions at UVID Dronetech.

Position/Level

- Administrative/Associate (9%)
- C Level Management (15%)
- Director (11%)
- Mid-Level Management (17%)
- Partner/Founder (16%)
- Technical Level (34%)

Field of mission interest

- Agriculture (5%)
- Defense (20%)
- Infrastructure & Buildings (5%)
- Mapping (8%)
- Search & Rescue (6%)
- Sport & Hobby (2%)
- Other (14%)
- Security (15%)
- Life Saving (6%)
- Entertainment (2%)
- Surveillance (12%)
- Logistics (5%)

Professional

- Academy & Research (6%)
- Communication (2%)
- Design (3%)
- Development (15%)
- Electro Optics (2%)
- Hacking (1%)
- Human Factor (1%)
- ILS (1%)
- Innovation and Investment (3%)
- Investment & Finance (1%)
- Operation (11%)
