UVID DRONETECH 2025

## The biggest and most prestigious unmanned ecosystem event in Israel

Unmanned Systems Revolution: A New Strategic Era

Conference Chairman: Mr. Alon Unger

November 27, 2025 ◆ Expo Tel Aviv

UVID Dronetech Conference and Exhibition

December 1, 2025 ◆ Yeruham

Civil Applications

Defense & Security

Smart Data, AI & Autonomy

Delivery & Urban Air Mobility

First Responder & Municipal Use

B2B

Counter-UAS

Infrastructure & Energy & Agriculture

New Tech, Innovation & Investments

Drone Education

UVID Dronetech 2025

The UVID Dronetech event, the major UAV\Drone Conference in Israel, aims to be a central meeting point for all stakeholders in the drone industry.

UVID Dronetech focuses on both the civil, defense & security aspects of drone technology, recognizing the importance of a dual-use ecosystem.

UVID Dronetech emphasizes the strategic importance of unmanned systems for national growth and security.

The central theme for UVID Dronetech 2025 will be:

Unmanned Systems Revolution: A New Strategic Era

Topics:

- Strategic Vision: National strategies and necessary steps for utilizing drones as a driver of economic growth and national security.

- Defense and Security: The role of unmanned systems in modern warfare.

- Counter-UAS – The Drones War challenges and solutions.

- Technological Advancements: Innovations in drone autonomy, AI integration, swarm technology, and the use of big data.

- Investments and Entrepreneurship in Drones.

- Smart Unmanned Solutions for Civilian Applications

- Unmanned Systems Future Trends & Innovation around the globe:

- Cybersecurity: Addressing the critical need to secure drone systems from cyber threats and vulnerabilities.

- Human Capital: The importance of drone education and training and promoting the role of women in the UAV industry.

- Dual-Use Technologies: military and civilian applications for versatile, scalable solutions

UVID Dronetech 2025, organized by IsraelDefense and Op-Team-UM, is a comprehensive event dedicated to exploring the latest advancements, challenges, and opportunities in the unmanned systems sector, with a particular focus on drones. The conference will bring together industry leaders, government officials, experts, researchers, and innovators to discuss the evolving landscape of drone technology and its impact on various sectors.

Who Should Attend:

- Defense and security agencies.

- Government officials, authorities and policymakers.

- Drone manufacturers and technology providers.

- Drones Users, Operators, Pilots and Technicians

- Researchers academics, and education.

- First responders and law enforcement.

- Investors and venture capitalists.

- Industry professionals from various sectors (agriculture, logistics, infrastructure, etc.).
